**Application**

VPSTN, LLC ("VPSTN"), hereby requests authority, pursuant to Section 214 of the Communications Act of 1934, as amended, 47 U.S.C. Section 214 (1982), and Section 63.18 of the Commission's Rules, 47 C.F.R. Section 63.18, to provide global international facilities-based and resale services between the United States and international points.

VPSTN is a new U.S. company organized to provide international telecommunications services. VPSTN has no foreign affiliations. VPSTN will serve business customers throughout the United States, including many who have had difficulties in the past in securing the opportunity to provide telecommunications services to foreign markets that are dominated by state-owned telecommunications monopolies or duopolies.

By granting this application under the Commission's streamlined processing rules, the Commission will serve the public interest, convenience, and necessity by promoting competition in the international services market. Competition will benefit U.S. consumers by increasing service options and lowering prices. Thus, the public interest will be served by the grant of Section 214 authority to VPSTN.
